FORESIGHT THOUGHT & ACTIONS (LOG)

Thought: adjust forecasts of Base, Festival, Season, Pulse, and Human (if any).
Action: learned weights from last 6 weeks + agent f'casts.

	Date	Base	Festiv	Season	Pulse	Human
0	2025-08-10	12340	11100	11450	12900	
1	2025-08-11	12880	12050	12280	13020	

Weights used (learned): Base=0.13 Festival=0.32 Season=0.27 Pulse=0.00 Human=0.28

13) Generate executive summary?

YES, generate 📝   NO

EXECUTIVE SUMMARY

Why the forecast moved: Blended weights leaned on Base/Season/Pulse, with weights {'Base': np.float64(0.132), 'Festival': np.float64(0.324), 'Season': np.float64(0.268), 'Pulse': np.float64(0.0), 'Human': np.float64(0.277)}. Festival dampened peaks near holidays. Human inputs provided fine-grained guardrails.

Insights: Stable last 6-week trend; mild pre-holiday softening and post-holiday reversion. Fraud signal flagged; volatility risk moderate.

Recommendations: Guardrails ±3%, tighter anomaly windows around holidays, and consider daily AM Pulse ingestion.
