

# PRACHI CHAUHAN

Hyderabad, India | [prachichauhan0901@gmail.com](mailto:prachichauhan0901@gmail.com) | +91 - 8287448723 | [LinkedIn](#)

## PROFESSIONAL SUMMARY

Business Analytics professional with hands-on experience in decision management, business analysis, and data-driven insights across cross-functional teams. Strong exposure to operational data analysis, exploratory and confirmatory data analysis, KPI monitoring, customer behavior analysis, and stakeholder communication. Proven ability to identify data inconsistencies, assess business performance, and translate analytical findings into actionable recommendations aligned with business strategy, process improvement, and risk considerations.

## WORK EXPERIENCE

### BOSCH GLOBAL SOFTWARE TECHNOLOGIES (BGSW) | Hyderabad, IN

#### Associate Data Analyst - Apprentice

Jan 2025 – Present

- Operational and **analytical reporting using SQL**-based workflows for Inventory Management Systems, enabling accurate monitoring of past business performance and **reducing manual reporting dependency by 30%**.
- Return-order and inventory analytics through structured datasets and optimized queries, supporting process improvement initiatives and **improving data accuracy by 25%**.
- KPI tracking, trend identification, and performance analysis** for procurement and inventory stakeholders to support decision strategies, business planning, and policy-level improvements with **35% improved turnaround time**.
- Data validation, quality checks**, and exception monitoring across operational datasets, identifying inconsistencies and **reducing non-compliant records by 40%** while strengthening control standards.

### MU SIGMA | Bengaluru, IN

#### Trainee Decision Scientist (Data Analyst)

Aug 2023 – Apr 2024

- Analysis of 1M+ customer experience and contact-center interaction records to evaluate service performance, identify gaps, and support policy and process recommendations **contributing to a 7% NPS improvement**.
- Exploratory data analysis, confirmatory and qualitative analysis, and root-cause assessment using SQL and Python to identify churn drivers, behavioral trends, and retention opportunities, **improving customer retention by 11%**.
- Business intelligence reporting through **Power BI dashboards with operational KPIs**, ensuring consistent insights for senior stakeholders and minimizing ad-hoc reporting dependency.
- Customer and consumer segmentation analysis using behavioral, demographic, and usage-based data to support targeting strategies and **decision frameworks** aligned with business partners.

## TECHNICAL SKILLS

**Data Analysis & Decision Management:** Exploratory Data Analysis (EDA), Confirmatory Analysis, Business Analysis, KPI Development, Trend & Pattern Identification, Segmentation, Forecasting, Predictive Analytics

**Programming & Querying:** SQL, Python (Pandas, NumPy)

**Business Intelligence & Visualization:** Power BI, DAX, Advanced Excel, PowerPoint, Google Sheets

**Data & Systems:** SQL Server, Oracle, ETL Processes, Data Pipelines, Data Validation, Data Quality Checks

**Ways of Working:** Cross-functional Collaboration, Stakeholder Communication, Business Insights Translation, Agile Methodology, Process Improvement, Risk Awareness & Compliance Mindset

## PROJECTS

### Music Store Database Analysis - SQL

- Advanced SQL analysis on 20K+ customer and sales records using joins, CTEs, and window functions to identify purchasing trends, repeat-buy behavior, and business growth opportunities supporting a **12% increase in repeat sales**.

### Credit Card Financial Dashboard - Power BI

- Power BI dashboard** analyzing credit card spend, transaction volume, average ticket size, category-wise behavior, and monthly trends to support customer insights and segmentation.

## EDUCATION DETAILS

B.Tech. (Electronics & Communication Engineering (ECE))

G.L. Bajaj Institute of Technology & Management

2019 - 2023 | Greater Noida, IN | CGPA: 8.57

## CERTIFICATIONS

- Create and Manage Power BI Assets – [Microsoft](#)
- Data Analytics and Visualization – [Accenture](#)
- SQL Programming Essentials – [Udemy](#)
