PROFESSIONAL SUMMARY

Business Intelligence Analyst with 2+ years' experience leveraging SQL, Power BI, and ETL processes to deliver end-to-end BI solutions across finance and operations. Drive requirements gathering, build optimized data models, and design interactive dashboards and MI reports that influence strategic decision-making. Lead data migration initiatives, automate reporting workflows, and model KPIs to enhance business performance, while collaborating with stakeholders to translate business needs into actionable insights.

WORK EXPERIENCE

A.S.D.F TECHNOLOGIES

Role: Data Analyst

London, UK

September 2022 – March 2025

- Performed analytics on 10K+ membership and program records annually using Excel and SQL to identify trends,regional disparities, and demand patterns that informed outreach and workforce Planning.
- Designed and automated Power BI dashboards to track conference participation, membership renewals, and program performance, reducing manual reporting time by 30%.and SQL pipelines and delivering accurate, real-time MI reports across Finance and Operations, also utilizing Excel for ad-hoc reporting.
- Produced analytical reports and forecasts in Excel and Power BI to support workforce planning, program evaluation,and resource allocation across global operations.
- Developed dashboards and reporting models that improved visibility of performance metrics, enabling senior management to identify underperforming areas and make data-driven decisions.
- Developed and executed marketing campaigns targeting 900+ universities and 4,000+ industry partners, resulting in a 15% increase in regional engagement and 15% growth in new customer acquisition.
- Standardised 10+ KPI frameworks across departments, ensuring consistency in performance measurement and supporting long-term strategy planning.
- Delivered insights and presentations to governance boards, turning complex datasets into clear, actionable findings that improved project delivery timelines by 15%.
- Collaborated with cross-functional teams (Finance, Operations, Research) to streamline data governance, improve forecasting accuracy by 10%, and enhance organizational reporting processes.

EDUCATION

UNIVERSITY OF LEICESTER

Master of Science: Data Analysis with Business Intelligence

Relevant Coursework: Data Mining and Visualization, Database and Information Systems, Applied AI, Mathematics and Statistics for AI.

Leicester, UK

January 2021 – July 2023

GITAM INSTITUTE OF TECHNOLOGY

Bachelor of Technology: Electronics and Communications Engineering

Visakhapatnam, IND

June 2016 – July 2020

PROJECTS

TOXIC BEHAVIOUR DETECTION & PATTERN ANALYSIS

- Analysed 30K+ Reddit comments with Python, combining **text classification and thematic analysis** to identify high-risk user accounts with ~85% accuracy.
- Conducted **clustering and segmentation** on 1.8K+ users to uncover patterns of toxic behaviour, informing moderation strategies and reducing harmful engagement by 15%.
- Translated findings into actionable recommendations, showcasing ability to link **user research to behavioural outcomes**.

TELECOM RECOMMENDER SYSTEM

- Developed an NLP and machine learning system on the Comcast dataset (2,200+ complaints) to classify sentiment and detect dissatisfaction trends.

- Designed a tiered recommendation framework to prioritize cases by severity, aiming to reduce resolution times and enhance service quality.
- Produced actionable insights to support telecom operators in reducing churn and optimizing agent allocation through data-driven decision-making.

SKILLS

- **Compliance & Risk Management:** Customer Due Diligence (CDD), KYC/KYB Reviews, Fraud Detection, AML, PEP/Sanctions Screening, Adverse Media Checks.
- **Data Analytics & BI:** Power BI (DAX, Power Query), SQL, Tableau, Excel (Pivot Tables, VBA, Modelling).
- **Statistical & Forecasting Methods:** Regression, Time-Series, Predictive Analytics, KPI Modelling.
- **Communication & Reporting:** Data storytelling, Stakeholder presentations, Insight synthesis.

CERTIFICATIONS

- FinTech Security & Regulation (RegTech) Specialization (**Coursera**)
- Wells Fargo Bank Teller Job Simulation (**Forage**)
- Tableau Business Intelligence Analyst (**Tableau**)
- Google Data Analytics (**Google**)
- Fundamentals of Financial Analysis (**London Business School**)
