EDUCATION

- **Konark Institute of Science & Technology, Bhubaneswar**
BTech in Electrical Engineering; CGPA: 8.10
Bhubaneswar, India
July. 2017 – Aug. 2021
- **Katras College, Katrasgarh**
Intermediate Of Science; PCT: 61
Dhanbad, India
Aug. 2015 – July. 2017

EXPERIENCE

- **Tech Mahindra (Client- Telefonica Germany)**
Software Engineer
Pune, Maharashtra
Sep 2023 - Present
 - Developed and maintained a **high-performance Spring Boot backend platform** powering **telecom services for 45M+ global users**, ensuring **high availability, scalability, and seamless digital experiences**.
 - Designed, developed, and deployed **10+ business-critical microservices**, improving **system modularity, fault tolerance, and scalability**. Independently built **9 microservices from scratch**, accelerating **feature delivery by 30%** and expanding **platform capabilities**.
 - Optimized **REST APIs** and backend workflows using **Spring MVC, Hibernate, and Spring Data JPA**, improving **API response times by 30%** and reducing **server load by 25%** under high-traffic conditions.
 - Improved **end-to-end request handling** and backend performance by optimizing **database queries, caching strategies, and service-to-service communication**, contributing to **20% faster page load times** for user-facing applications.
 - Collaborated directly with **client teams, product owners, QA, and DevOps** to gather requirements, deliver **feature enhancements**, and resolve **technical issues with quick turnaround**, improving **release efficiency and stakeholder satisfaction**.
 - Led **issue analysis and root-cause investigations**, working closely with **QA** to identify, troubleshoot, and resolve **production defects**, increasing **system stability** and reducing **post-release incidents**.
 - Conducted **code reviews** and enforced **best practices** including **clean architecture, exception handling, and logging standards**, reducing **production bugs by 40%** and improving **overall code quality**.
 - Implemented **BDD test automation using Cucumber**, increasing **test coverage**, aligning **business scenarios with API behaviour**, and reducing **regression testing effort and QA cycles**.
 - Ensured **secure API access** by implementing **authentication and authorization mechanisms** using **industry-standard security practices** for backend services.

PROJECTS

- **Chat Karo – Real-Time Chat Application:** Developed a real-time chat application using Java Spring Boot and Socket.IO. Implemented WebSocket-based full-duplex messaging for instant communication and created backend WebSocket endpoints for message handling and synchronization. Integrated Spring Security for user authentication ensuring secure and private chats. **Tech Stack:** Java, Spring Boot, Socket.IO, WebSocket, Spring Security, HTML, CSS, JavaScript
- **Auto Avenue – Cab Booking Platform:** Built a cab booking application with features such as real-time ride booking, driver updates, tracking, and fare estimation. Designed an intuitive driver interface enabling seamless ride assignment and management. **Tech Stack:** Java, Spring MVC, Hibernate JPA, HTML, CSS, JavaScript.

ACHIEVEMENTS AND RESPONSIBILITIES

- **Project Excellence Awards:** Received multiple internal recognitions including **Standing Ovation Award** and **Bravo Award** for exceptional project contributions and consistent high-quality delivery.
- **National Level Winner – PRO-JIT:** Secured **1st Prize** at PRO-JIT National-level Project Competition among top engineering teams.
- **State Level Winner – DIPEX:** Achieved **2nd Prize** in the DIPEX State-level Project Competition for innovation and technical implementation.

SKILLS

- **Proficient:** Java, Spring Boot, Spring MVC, Microservices, REST API Development, Hibernate, JPA, JDBC, MySQL, Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks
- **Comfortable:** HTML, CSS, JavaScript, Bootstrap, Servlet & JSP, Cucumber (BDD), Unit Testing, API Testing, Thymeleaf.
- **Tools & Technologies:** IntelliJ IDEA, Eclipse, VS Code, Jira, Postman, Git & GitHub, Confluence, Maven, CI/CD, Jenkins, Docker, Kubernetes
