Apprentice Leader | Mu Sigma Inc

+91-9556052477 | [shriya.jha2017@gmail.com](mailto:shriya.jha2017@gmail.com) | [www.linkedin.com/in/shriya-jha-1999m/](https://www.linkedin.com/in/shriya-jha-1999m/)

## EDUCATION

B.Tech. (2017-2021): Kalinga Institute of Industrial Technologies

## KEY SKILLS

Generative AI  
Large Language Models (LLMs)  
Business Intelligence  
Data Analytics  
Data Governance & Management  
Regulatory Compliance  
Predictive Analytics & Modelling  
Project Management  
Business & Client Communication  
Problem Solving  
Team Collaborator  
Leadership & Innovation

## TECHNICAL SKILLS

MS Office Suite  
Azure  
SQL  
Python  
Excel (Incl. Pivots)  
Power BI

## STRENGTHS

### Generative AI Expertise

Experienced in **Generative AI applications**, specifically in **leveraging LLMs for business optimization** and **client insights**

### Project Management

Strong **project management abilities** demonstrated through **leading cross-functional teams** on **critical initiatives**

## PERSONAL DETAILS

**Date of Birth:** 18th May 1999

**Address:** Bangalore, India

**Languages:** English, Hindi, Maithili

## PROFILE

- Data professional with 4+ years of experience in leveraging LLMs for various applications, natural language processing pipelines, and generative AI solutions to address business challenges and enhance product strategies in BFSI & Technology industries
- Skilled in leveraging advanced analytics and AI technologies, led projects that improve decision-making, optimize pricing, and deliver actionable consumer insights
- Led a team of 5 to develop a Gen AI solution for device sentiment analysis and review summarization, achieving **40% revenue growth** for Mu Sigma

## EXPERIENCE

### APPRENTICE LEADER • JANURAY 2025 – PRESENT

#### MULTI AGENTIC CHATBOT | TECHNOLOGY

- Led a **\$600K** engagement of **5**, to build a **Gen AI architecture** for consumer sentiment analytics for consumer & social reviews across 11 geographies and 17 retailer websites
- Enabled business leaders to generate **on-demand visual** and **descriptive analytics**, reducing time-to-insights by **80%** and reducing manual hours by **1500+ hours**

#### DEVICE ASP PREDICTION | TECHNOLOGY

- Built a **regression-based pricing model** to predict optimal device pricing based on sales, trends, competitor pricing, and feature importance
- Delivered an **executive-ready pricing insights report** with scenario-based simulations and regression performance metrics, enabling **high-confidence pricing decisions** and supporting **optimized go-to-market strategies** for new product launches

### TRAINEE DECISION SCIENTIST • JULY 2021 – DECEMBER 2024

#### SENTIMENT & DEVICE NAME CLASSIFICATION | TECHNOLOGY

- Designed a **TABSA BERT** and **BERT-based classification model** to classify sentiment and standardize device identification across **60+ subfamilies** from **8 OEMs**.
- Combined **Regex** and **NLP techniques** to enhance sales data accuracy and inventory tracking

#### DATA GOVERNANCE - BRANDED CARDS | BANKING

- Identified and mitigated regulatory reporting risks by analyzing **100K+ transaction records**, reducing data discrepancies by **25%** and ensuring **100% compliance** with Federal Reserve reporting guidelines
- Collaborated with cross-functional **business and technical teams** to document **end-to-end data flows** and automate **data validation processes**, improving reporting accuracy and reducing manual effort by **30%**

#### CREDIT CARDS PERFORMANCE ANALYTICS | BANKING

- Defined **business rules** using **SQL** to assess **customer propensity** for credit card acquisition, increasing **targeting accuracy by 15%** and driving **10% higher conversion rates** for new card sign-ups.
- Analyzed **transactional data** (e.g., balance transfers, spend patterns) to create **customer cohorts** for pre- and post-promotion campaigns, enabling **20% better segmentation** and improving **marketing ROI by 12%**.
